

Memorandum of Understanding

1. In order to promote exchange and cooperation in education and culture and provide better international education opportunities to students, in accordance with relevant laws of the two countries on education and under the principle of equality and mutual benefit, **Dr. Alireza Fadaei Tehrani from the Innovative Bio Engineering Center for Cancer, Department of Mechanical Engineering, Isfahan University of Technology** and **Dr. Lulu Wang from the Biomedical Device Innovation Center, Shenzhen Technology University**, decide to sign a Memorandum of Understanding for cooperation.
2. This Memorandum of Co-operation witnesses that the institutions wish to explore the possibility of collaborating together in the field of Biomedical Imaging and Biomedical Devices in various ways, including:
 - a. Exchange of information;
 - b. Mutual visits by faculty members and exchange of students;
 - c. Development of collaborative academic programs;
 - d. Development of joint research activities;
 - e. Participation in seminars and conferences organized by the respective institutions;
3. The terms of cooperation for each specific activity implemented under this agreement shall be mutually discussed and agreed upon in writing by both parties prior to the initiation of that activity. Such agreements will have full regard to issues of quality assurance and budgetary matters and may be subject to legal contracts as agreed by the parties.

4. This agreement becomes effective from the day the representatives of both institutions affix their signatures and will continue for an initial period of three years. At the end of three years, the agreement will automatically be renewed unless otherwise determined. This agreement may be revised through the mutual agreement of both universities and may be terminated by either party upon giving six months written notice signed by the presiding officer of the notifying party.
